INTERESTS & AIMS

I am interested in scientific, medical & tourist magazines and books and I have a deep interest in informatics. I am friendly, patient and a calm character. I am creative and always like to keep myself up-to-date about my job fields, and when I meet a problem I try to find immediately the solution. Being extremely willful, ambitious and sure of my capacities, I always live up to the expectations that I set for myself. The attention to details is what most concerns and motivates me to always look for and achieve the best.

According to the law 196/2003, I authorize the use of my personal data

Emilio FABRIS
